DELIVERY SCHEDULE EXTERNAL CARRIERS EIRE, GB & EUROPE

EIRE, GB & EUROPE

Parcel Force – Parcels

They call into our company each afternoon. They will advise delivery day based on destination. There is an additional fee should you require a Saturday morning delivery. We find them to be reliable.

They charge a parcel rate for the first 10kg then a rate per kg thereafter.

Carrier – Pallets

We have scheduled daily collections with a set carrier in mid afternoon for next day and following day deliveries. They are more suitable for pallets or multiple parcels (where Parcel Force fees would exceed pallet rate). Our staff can advise you of the details including delivery day and costs which we recharge at cost. We find our carrier to be reliable as we are often delivering on a daily basis to time critical food plant customers through out Ireland including Cork!

Own Collection

Our stores are open 8.00am to 4.30pm. Please advice the sales office that you have booked your own carrier / collection agent to come in and give details of time so that our staff can have the goods ready. Collections between 8.00am and 9.00am need to be advised to the sales office by 4.45pm the previous day.
